

Mill Surface Slitter Rewinder

Large format slitter rewriter for mill type situations. Hydraulic unloading and shaftless unwind makes handling heavy rolls easy. Optional embossing for tissue applications.

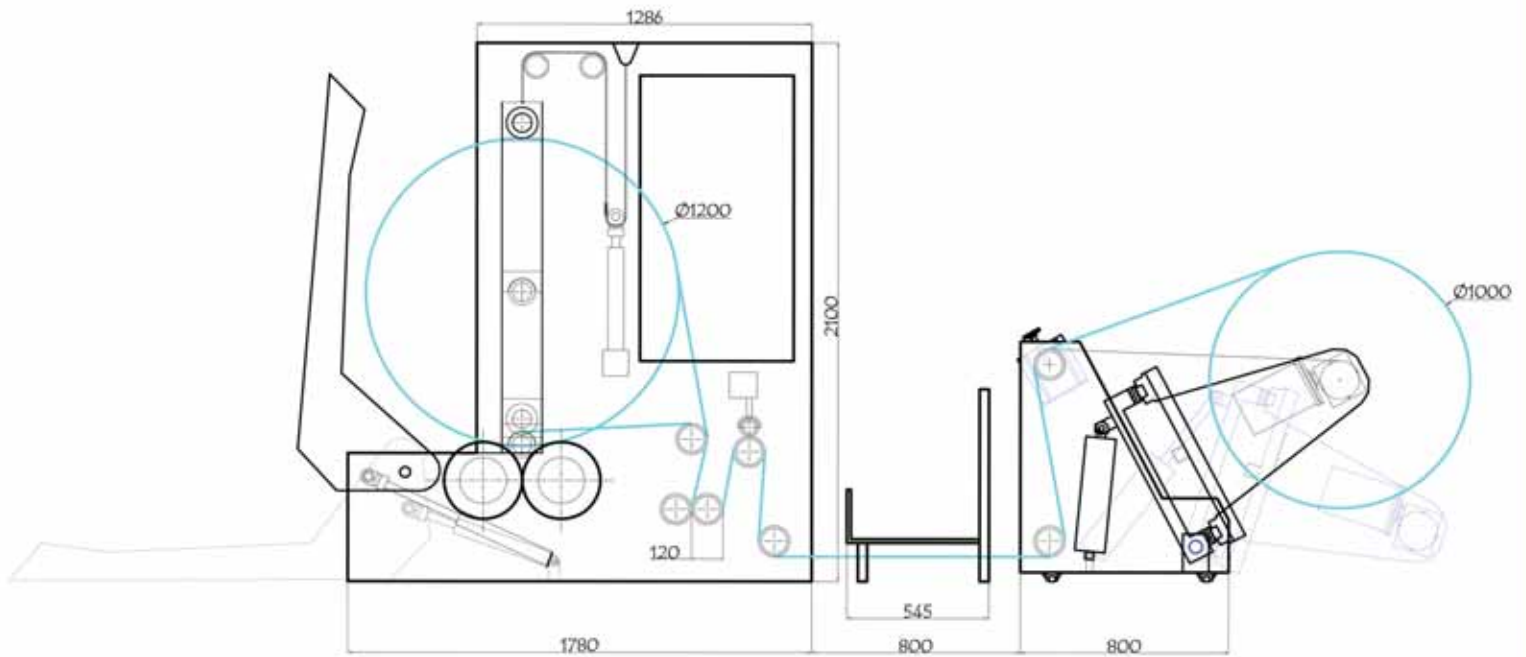

Individual air knife holders for tangential slitting configuration.

Optional embossing rollers.

Walkway between the sections makes knife adjustment easy.

Technical Parameters

* Max. material width	2300 mm
* Max. mechanical speed	500 m/min
* Parent roll : diameter	1200 mm
* Slit rolls : max. roll diameter	1200 mm
* Min. slit width	100 mm

Processed Material

* Paper :	18 - 230 gsm
